LinkedIn: [Mohamed Aqeeb](#) | Udupi, Karnataka

SUMMARY

Data Analyst with nearly 1 year of experience and a background in Artificial Intelligence & Machine Learning, with hands-on expertise in SQL, Power BI, Excel, and dashboard development. Skilled in transforming raw data into actionable insights through interactive visualizations and structured reporting. Experienced in customer segmentation, KPI tracking, and data-driven business analysis. Skilled in leveraging AI tools to enhance analytical workflows and improve decision-making.

CORE COMPETENCIES

- **Data Analytics & BI:** SQL, Power BI, Microsoft Excel, Power Query, DAX, Python
- **Data Analysis:** Data Cleaning, Data Transformation, Data Validation, Exploratory Data Analysis (EDA), Trend Analysis, KPI Analysis
- **Data Visualization & Reporting:** Interactive Dashboards, KPI Dashboards, Business Reporting, Data Visualization
- **Database & Querying:** MySQL, MongoDB, SQL Queries, Data Extraction
- **AI & Automation:** ChatGPT, Claude, AI-Assisted Analytics
- **Technical & Development:** JavaScript, React.js, Node.js, Express.js, RESTful APIs, Git/GitHub

PROFESSIONAL EXPERIENCE

Yashaswi Fish Meal and Oil Company | India

Data Analyst | Jun 2025 – Mar 2026

- Analyzed production, inventory, and sales data using SQL and Excel to support operational and business decision-making.
- Developed 4+ interactive Power BI dashboards with 20+ KPIs to monitor production performance, inventory levels, sales trends, and operational metrics.
- Cleaned, transformed, and validated 10,000+ data records using Excel and Power Query, and developed DAX measures for KPI and performance analysis.
- Generated 40+ weekly and monthly analytical reports, providing actionable insights to improve operational efficiency and resource planning.
- **Tools:** Power BI, Excel, SQL, Power Query, DAX

CodeLab Systems | India

Full Stack Developer Intern | Feb 2025 – May 2025

Client: Pet Paradise – E-Commerce Web Application

- Developed and deployed a full-stack pet care e-commerce platform using the MERN stack, supporting end-to-end user workflows including product browsing, authentication, and order management.
- Designed and implemented 15+ RESTful APIs enabling secure backend communication, supporting CRUD operations, data validation, and role-based authentication.
- Collaborated with a 2-member Agile team using Git/GitHub for version control, code reviews, and sprint-based delivery.
- Tools: Python, MongoDB, Express.js, React.js, Node.js, Git/GitHub.

SELECTED PROJECTS

Myntra Sales Analysis Dashboard | Apr 2026

- Developed an interactive Myntra Sales Analysis Dashboard using Power BI, Power Query, Excel, and DAX to analyze sales performance, customer orders, discounts, and product distribution across multiple brands.
- Designed interactive KPI dashboards with slicers, maps, charts, and DAX measures to visualize monthly sales trends, brand performance, category rankings, and regional sales insights for data-driven decision-making.
- Tools: Power BI, Microsoft Excel, Power Query, DAX.

Pixel Revive: Enhancing the Past | Dec 2024

- Developed an image restoration and enhancement system using PyTorch and Transformer-based models to perform noise reduction, colorization, and resolution enhancement on old and damaged images.
- Implemented an interactive Gradio web interface enabling real-time image uploads, processing, and visualization, improving model accessibility and usability.
- Tools: Python, PyTorch, OpenCV, Gradio, Scikit-learn.

EDUCATION

Bachelor of Engineering in Artificial Intelligence and Machine Learning

Srinivas Institute of Technology | Jan 2021 – May 2025

CERTIFICATIONS

- **Microsoft Power BI** — Microsoft Badge
- **DevOps Fundamentals** — IBM CE | Sep 2024
- **Machine Learning** — Intel® Unnati | Aug 2023
